## Guía para Actualizar el Sistema con Clover

## Paso 1: Ejecutar el Actualizador Clover

Para comenzar, deben ejecutar el programa 'Actualizador Clover'. Esto se realiza haciendo doble clic en el ícono que se muestra a continuación:

## Paso 2: Esperar la ejecución de los comandos

Al iniciar el actualizador, aparecerá una ventana de comandos como la siguiente. Espere mientras se ejecutan los comandos de actualización. No cierre esta ventana.

```
Actualizador Clover

```

## Paso 3: Verificar el estado de la actualización

Una vez finalizados los comandos, se abrirá automáticamente una pestaña en su navegador mostrando el estado de la actualización de las carpetas del sistema. Espere a que la carpeta cambie de color azul a verde, lo que indica que la actualización ha finalizado correctamente.
